

# Fax-to-Email

Windstream Fax-to-Email allows businesses to leverage the advantage of mobility to send and receive faxes online. Businesses are able to access their faxes anywhere they can access their email or the Internet - on devices such as PCs, laptops and hand-helds. With this service there's no need for a fax machine, ink or even paper!

## FEATURES

- Toll-free numbers.
- An online interface that allows for easy storage and retrieval of faxes.
- 30-day online archive with ability to download and save faxes.
- Access/Send/Receive faxes via mobile device.
- Forward fax documents to co-workers/vendors/customer via email.
- A dedicated mailbox for faxes.
- Automatic retries for failed sent faxes.
- Supports file formats including Microsoft Word, Excel, PowerPoint and PDF files.
- 24/7 U.S.-based technical support with priority treatment for business.
- No set-up fee.
- No contract required.

## BENEFITS

- Reduce cost of sending long-distance faxes.
- Leverage existing network investment.
- Eliminate costs of owning and maintaining fax machines.
- Save money and go green by never needing paper as faxes come through email.
- Store and transfer important fax documents online for convenient access.
- Increase workplace productivity by no longer needing to run by the office to pick up or send a fax.
- Save on long-distance fax line charges.
