

DEDICATED INTERNET

For businesses that rely on heavy Internet usage for their daily operations, Windstream offers a Dedicated Internet solution that is much more robust than business class Internet or cable data connections. Our Dedicated Internet offers a private, non-shared solution with symmetrical upload and download speeds for optimal data transferring. And for businesses with mission critical data and zero tolerance for downtime, you'll find Dedicated Internet gets the job done. Our Service Level Agreement (SLA) guarantees you 99.99% uptime.

FEATURES

- Symmetrical upload and download speeds.
- Consistent speed throughout the day not impacted by peak Internet usage periods.
- Use with hosted applications like Fax-to-Email or Web and Audio Conferencing.
- Full range of bandwidth options to give you maximum flexibility, from 10Mbps to 40Mbps.
- Connect remote employees or multiple locations to your network using VPN.
- Connect PBXs, key systems or Windstream hosted phone solutions.

BENEFITS

- Never compete for bandwidth thanks to dedicated, non-shared Internet access.
- Alleviate the worry of an outage with our Service Level Agreement, which guarantees 99.99% uptime.
- Transfer sensitive information via a private connection.
- Meets regulatory privacy requirements for banks and financial institutions that transfer sensitive or private information.
- Symmetrical upload speeds to send large amounts of data such as medical records, large X-rays, financial data, virtual reality tours, MLS listings, architectural renderings and multimedia files.
- Batch loads to online databases or private databases.
- Stream video and utilize video services.
- 24/7 U.S.-based technical support with priority treatment for business.
